# **SITUATION SUMMARY**

## **CDPH Ebola Situational Update, August 15, 2014**

At present, the weekly situational assessment for the risk of Ebola infection in California is VERY LOW.

- As of August 13, the U.S. Centers for Disease Control and Prevention has reported a cumulative total of 1975 suspect and confirmed cases and 1069 deaths.
- CDC has advised travelers to avoid all non-essential travel to Guinea, Sierra Leone, and Liberia, and has issued a lower level alert for Nigeria.
- Both CDC and the California Department of Public Health (CDPH) have begun efforts to prepare for the unlikely event that a returning traveler from these countries is infected with Ebola virus.
- CDPH has created an internal workgroup to address all public health aspects of the Ebola response.
- CDPH continues to work with the health care community and local health jurisdictions to identify potential suspect cases and avoid the spread of the disease.
- On August 12, CDPH conducted two statewide calls with local jurisdictions and local public health laboratories to review the current EVD situation and CDC guidance for identifying and managing cases with suspect Ebola virus infection that may arrive in California.
- To date neither CDPH nor any local health jurisdictions have received reports of any suspect cases of Ebola in California.

## **Boil Water Order , Escondido, San Diego County (Update)**

- The Boil Water Notice includes Palomar Health Center. The Regional Disaster Medical Health Specialist (RDMHS) for Region VI is in contact with the hospital and issues medical situation reports every twelve hours. The hospital is using canned and bottled water, paper plates and disposal cups as a precaution. Testing continues but the RDMHS VI advises Saturday's testing was negative for coliform bacteria. The SDO continues to monitor the situation and coordinating with the San Diego County OES Duty Officer and the RDMHS VI.
- The Cal OES Southern Duty Officer advised of a Boil Water Notice has been ordered for the City and Unincorporated areas of Escondido, San Diego County due to the appearance of a buildup of coliform bacteria. Rincon del Diablo Water District is advising residents in District ID 1, Pressure Zone 3 to use boiled tap water or bottled water for drinking or cooking purposes as a safety precaution.
- Rincon del Diablo Water District has reported that over 40 samples have been taken and is currently looking to what caused the coliform bacteria. This is a standalone Water Quality issue and is not related to the Drought in California. This incident has attracted local media attention.
- State Water Boards Drinking Water Program (DWP) Duty Officer advised through his Regional contact that these types of notices are routine work for a district office and can be lifted by Sunday evening at the earliest. Cal OES Southern Region continues to stay in contact with San Diego County.
- There are no requests for assistance or unmet Access and Functional Needs issues.

## **City of Needles Severe Weather Incident, San Bernardino County (No Change)**

### **Situation**

On Tuesday, August 12, 2014 at approximately 1630 hours a severe thunderstorm settled over the City of Needles causing flooding and wind damage. The City of Needles reported a minimum of 50 downed power lines, damage to roofs, and multiple downed trees. A determination has yet to be made if this incident may be linked to the August Severe Weather Incident.

- A local proclamation was received August 14, 2014 from the City of Needles for heavy rain, flooding and adverse weather conditions. The Proclamation is requesting a Governor's Proclamation including CDAA, a Small Business Administration declaration and any State or Federal funding. Initial damage estimates continue.
- Initial Damage Information has been received for the City of Needles. Crews are still out and the damage information may change. Current Public Assistance damage is just over \$2.3 million including personnel overtime costs and estimated costs of Debris Removal (Category A), Road and Bridge Systems (Category C) and Public Utilities (Category F). Individual Assistance damage includes 15 homes and one business destroyed, and 250 homes affected.

### **Road Closures**

- Pahaska Trail from Rio Vista Drive to North to Lakota Court in the area of Big River, no anticipated time for reopening.
- Five Mile Station Road from I-40 west to Highway 95 in the area of Needles, no anticipated time for reopening.

A potential Japanese Tsunami Marine Debris (JTMD) was discovered on Mussel Rock Beach, in Daly City, San Mateo County. The boat is on Federal Land in a National Recreation Area. Boat is still on the beach. At high tide, the water will reach the boat. Boat is secured. **Salvage Strategy**

**Access:** San Mateo County worked with Daly City Police and Fire departments to obtain access for appropriate parties to do the salvaging operation which is lead by GGNRA.

**Next steps:** Estimates obtained from contractors and salvage operations will begin today and through the weekend if necessary. Coastal Region will continue to monitor the situation.

# **SITUATION SUMMARY**

## **Port of Oakland Protest (Update)**

Cal OES Law Branch is closely monitoring a situation in Oakland. Oakland Police uncovered information, primarily from social media sources, that a Pro-Palestine group was planning a protest to prevent a partially owned Israeli vessel from docking at the Oakland Port the morning of August 16. Oakland PD estimated that as many as 1,000 people would participate in the protest. With the Oakland PD DOC activated, the protest attracted only about 50 protestors. This group, which disbanded by 0630 hrs. without incident, made plans to return later the same afternoon. A much larger group, estimated to be approximately 500, re-assembled beginning about 1430. They marched from the West Oakland BART Station to the Port of Oakland, briefly impacting traffic on Third St, Seventh St and Adeline St. Alameda County deputies and CHP personnel assisted. By about 1900 hours the protestors had disbanded. Oakland PD reported that no arrests were made and no vandalism reported.

The ship that the protestors were concerned about postponed it's arrival to the Port of Oakland. Oakland PD, The Port of Oakland, Alameda Sheriff and the US Coast Guard will monitor for further developments. Cal OES Law Branch will continue to monitor.

# **SITUATION SUMMARY**

## **Hurricane-Tropical Storm, Hawaii, Pacific Ocean (No Change)**

### **Current Situation:**

Tropical Cyclones Iselle and Julio have dissipated. Hawaii Emergency Management Agency and Hawaii Civil Defense Agency are conducting response and recovery operations on the Big Island. No tropical cyclones are expected through Monday morning. . The Disaster Assistance and Recovery Centers (DARCs) will be closing tomorrow August 17, 2014. Preliminary Damage Assessment team have been conducted on 542 buildings to include residences and infrastructure.

### **Activations:**

Hawaii County: EOC activated; 1 shelter open  
State: State EOC is Partially Activated

### **EMAC Deployment**

**2014-SOC-4699** Deployment of A Team Type I Staff

- (2) OES staff and (1) CNG departed 8/8/2014, expected to return, 08/22/14.

### **Ripon PD 911 Outage (Final)**

At approximately 1152 hours on 08/16/14, Ripon PD was not able to make or receive any calls. The PSAP activated alternate answer and made test calls to confirm the 911 calls were rerouted to their alternate answer PSAP. A contractor laying a new pipe on Ripon Road cut fiber which created the community isolation. [Service was restored at 0630 hours this morning.](#)

### **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought
- City of Portola, Plumas County has submitted a proclamation due to drought requesting State Water Board relief for those post 1914 junior water rights holders currently subject to surface water diversion curtailments.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

An upper level low will develop over Oregon today passing over northwest California on Monday. This low will bring a slight chance of showers and thunderstorms to parts of the interior today and Monday. Otherwise, seasonal temperatures will persist for the next few days with low clouds along the coast each night and morning.

#### **San Francisco Weather:**

Today is expected to be much like Saturday except for a few degrees of cooling in most areas. More cooling is forecast for Monday and Tuesday as an area of low pressure moves south along the California coast. No precipitation is expected from this system except perhaps patchy night and morning coastal drizzle falling from a deep marine layer. Warming may occur late in the week although confidence in the forecast diminishes after midweek.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

A cooling trend will begin Monday and continue through the end of the week. A low off the coast may bring some isolated showers/thunderstorms Monday and Tuesday for mainly the Coastal Range, Shasta County, and Lassen Park area, and the Sierra south of Lake Tahoe Tuesday.

#### **Hanford Weather:**

Weak ridging will begin moving eastward into the Four Corners area region tonight. This will allow an upper level trough of low pressure to move into northern California. This will bring an onshore flow and a cooling trend Monday through Wednesday.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Warm temperatures will continue through Sunday as the high pressure remains in the area. A low pressure trough will move into the area on Monday bringing a cooling trend for the week along with overnight low clouds and fog. Subtropical moisture may bring a slight chance of precipitation later in the week.

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

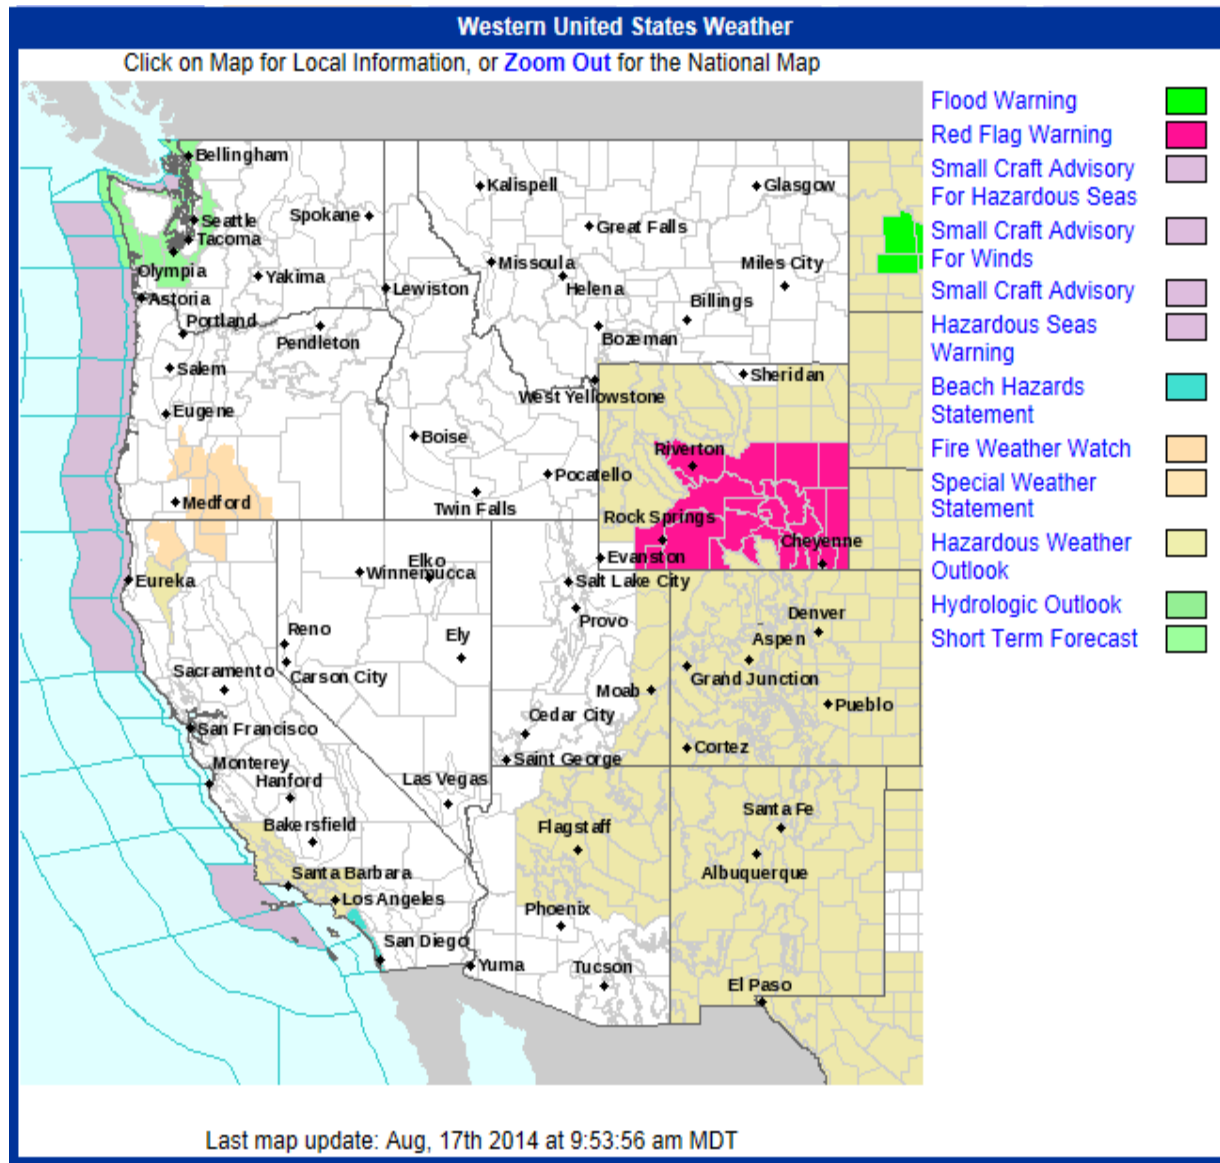

A low pressure system off the Pacific Northwest and northern California coast will move slowly southward moving to near southern California Tuesday night and Wednesday. This will bring a cooling trend for Monday through Wednesday, a return and deepening of the marine layer with more night and morning coastal low clouds and fog, and dry southwest flow aloft. This low pressure system will weaken late in the week with high pressure over the southwest states expanding into southern California next weekend. This will bring a warming trend toward the end of the week along with a shallower marine layer.

#### **Southeast California Weather:**

Isolated showers and thunderstorms will once again be possible across the region today as monsoon moisture begins to slowly increase across the forecast area. On Monday, an early season Pacific low pressure system will approach the area and will draw even more monsoon moisture northward back into the region.

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is Monday – Friday, 0800-1700 hours.

### Situational Summary

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

- Current Reservoir Levels continue to decline. Levels as of **August 14<sup>th</sup>**: Don Pedro 42%; Exchequer 18%; Folsom Lake 40%; Lake Oroville 33%; Millerton Lake 48%; New Melones 25%; Pine Flat 12%; San Luis 20%; Lake Shasta 32%; Trinity Lake 32%; Pyramid Lake 94%; and Castaic Lake 45%.

- Emergency Drinking Water Procurement and Distribution Planning Guidance (rev. May 2014)

Significant changes have occurred to the structure of California's state government organization. Rapid advances in systems, science, and technology have helped emergency managers improve coordination, forecasting, and situational awareness. Because of these changes, the *Multi-Agency Emergency Response Procedures for Potable Water Procurement & Distribution* document has been replaced by the *Emergency Drinking Water Procurement and Distribution Planning Guidance*. The intent of this guidance document is to clarify the roles and responsibilities of the stakeholders involved in locating, procuring, and delivery of emergency drinking water<sup>1</sup> to populations in California. Consequently creating a framework for agencies and organizations to work together to enhance preparedness.

- State Board Mandatory Conservation Regulations Now in Effect: The state's first-ever emergency regulations mandating urban water conservation became effective will be in effect until April 25, 2015.

- The 2014 Governor Drought Task Force continues to meet regularly to take actions that conserve water and coordinate state response to the drought.

- Cal OES continues to gather drought-related costs from state agencies and local governments.
